

## Articulation Agreements

Through a series of articulation agreements, Berkeley College has agreed to accept credits from certain other institutions of higher education. A current list of such institutions is set forth below. Each agreement covers specific courses and credits. This list is updated periodically. For more information, contact Admissions or your academic advisor.

### New Jersey

Berkeley College has implemented the New Jersey Comprehensive Statewide Transfer Agreement, which provides for a seamless transition from Associate to Baccalaureate degree programs and supports the successful acquisition of Baccalaureate degrees by transfer students. An A.A. or A.S. degree from a New Jersey community or county college will be fully transferable as 60 semester credits to be counted towards the degree requirements of a New Jersey Baccalaureate degree, with the 60 semester credits to be granted as either course-by-course equivalencies between courses in the student's A.A. or A.S. degree and those at Berkeley College or as general elective credits. For more information visit [www.njtransfer.org/](http://www.njtransfer.org/).

In addition, Berkeley College has written agreements with the following institutions:

Bergen Community College  
 Brookdale Community College  
 County College of Morris  
 Cumberland County College  
 Ocean County College  
 Passaic County Community College  
 Raritan Valley Community College  
 Sussex County Community College  
 Union County College  
 Warren County Community College

### New York

Borough of Manhattan Community College  
 Dutchess Community College  
 Herkimer College  
 Kingsborough Community College  
 Mandl School  
 New York Career Institute  
 Orange County Community College  
 Queensborough Community College  
 Rockland County Community College  
 Westchester Community College

### Other U.S. States and Territories

Huertas Junior College

### International

Bermuda College  
 European Business School (EBS) Paris  
 Guizhou University of Finance and Economics
