Bachelor of Science Degree (B.S.)
National Security

PROGRAM LEARNING OBJECTIVES

1. Reading and Written Communication: Students will demonstrate competent writing and reading throughout their programs of study.

2. Oral Communication: Students will demonstrate effective oral communication skills in both general and major-specific contexts.

3. Critical Analysis and Reasoning: Students will use critical analysis and reasoning, supported by knowledge and skills learned throughout their degree programs, to enhance personal and professional decision making:
   - Quantitative analysis and reasoning
   - Analysis and reasoning in the humanities, sciences, social sciences, and arts
   - Ethical analysis and reasoning
   - Reasoning in career-related contexts.

4. Knowledge and Skills for Living in a Diverse Society: Students will consider multiple perspectives (quantitative and qualitative, among individuals, from different cultural contexts, etc.) when making decisions independently or as part of a team.

5. Information Literacy: Students will define and articulate their needs for information and access this information effectively and efficiently.

6. Integration of Learning: Students will develop the ability to integrate their learning, making connections within their major, between fields, between curricular and co-curricular activities, and between academic knowledge and practice.

7. Students will demonstrate an understanding of the history and fundamental concepts related to the discipline of national security studies.

8. Students will gain a comprehensive knowledge of national, corporate, and cyber security theories and practice, which will enable students to understand contemporary national security issues.

9. Students will analyze and evaluate the policy of decision makers in governmental, quasi-governmental, and private sectors and identify key agencies within the U.S. intelligence community and their respective missions.

10. Students will demonstrate an understanding of the computer applications utilized in addressing security and privacy issues and the role of technology and its implications for national security.

11. Students will demonstrate an understanding of ethical and sound decision making in dealing with issues of national security.

Not all programs and courses are offered at all locations. You may be required to take some courses at another location or online.
