Associate of Science in International Business	Employment Rate	80%	NJ Fall 2022-Winter 2023: N/A NY Fall 2022-Winter 2023: N/A

**Calculations for Measures**

<b>MEASURE</b>	<b>DESCRIPTION AND HOW IT WAS CALCULATED</b>
Employment Rate	<p>Employment rates of graduates are calculated based on communications between graduates and Career Services staff. Those percentages include all graduates who were employed in a full-time, part-time, contract, and/or per diem position within 180 days after graduation. The numbers include graduates who have found employment through direct referrals provided by Career Services; students whose Berkeley College internships have led to full-time, part-time, contract, and/or per diem employment; students who have found employment on their own, including many who have benefited from coaching and resume assistance offered by Career Services; and students who have remained in positions they held prior to enrolling at and/or while attending Berkeley.</p> <p>Graduates who decline placement assistance from the College and those who cannot be contacted or choose not to provide information are not reflected in the calculations. Reasons for declining placement assistance may include a lack of U.S. work authorization for international students, relocation, continuing education, military service, and medical or other personal issues and preferences.</p>
