Governing regulations may disqualify individuals from obtaining professional certification in this field based upon certain health conditions or results of criminal background checks. Therefore, in addition to meeting the immunization requirements of Berkeley College and the State of New Jersey, students applying to the LPN to B.S.N. program must provide authorization for a criminal background check prior to registration and submit a physical assessment by a licensed medical professional prior to participating in clinical rotations. Students enrolled in the LPN to B.S.N. program are required to purchase their own malpractice insurance.

Extensive criminal background checks may be repeated after admission at the request of clinical facilities, and positive findings may prevent students from completing the clinical portion of the program and graduating. Health requirements required for clinical courses are extensive and may total several hundred dollars. The costs of these health requirements are borne by the student.

To qualify for graduation, students must pass all Nursing (NUR) courses with a minimum grade of B. Graduates of the LPN to B.S.N. program are eligible to sit for the NCLEX-RN licensure examination. Passing this exam is required to work as a Registered Nurse (RN).

Under certain circumstances the need to take developmental College Skills courses may lengthen the time required to complete the student's program, and may result in increased costs to a student.
