You may have to wait for the host to start the meeting.

Once the meeting has started, it is time to setup your audio. Depending on how your instructor setup the meeting, you can either use your mic on your PC/devices or call into the meeting. (We suggest calling into the meeting).

Select the tab Phone Call to get the Dial in Information. Once you are dialed in click done, and then click the button "Continue".

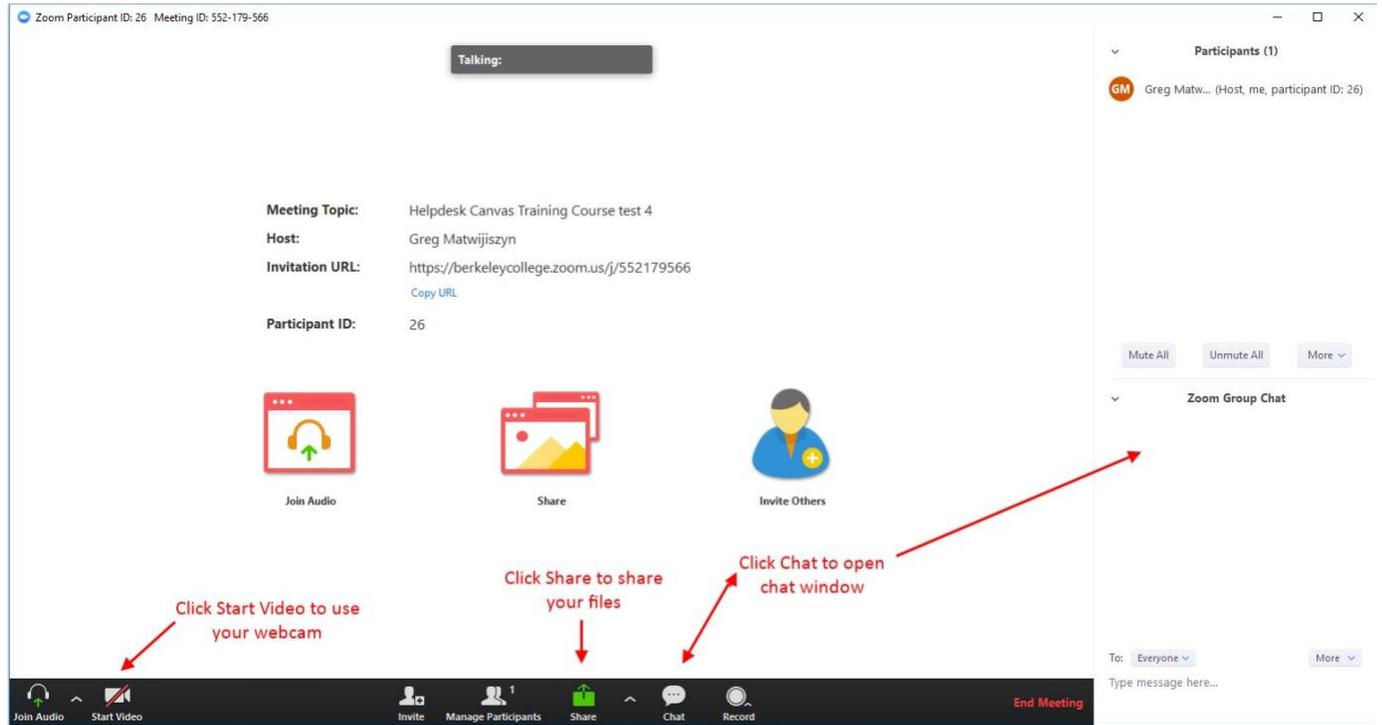

**Do you want to continue without audio?**

You won't be able to hear other participants in the meeting, nor will they hear you.
