

Enroll a New Device

To start enrolling a new device, click **Add a new device**. If you don't see this link then your organization may not have enabled this functionality. Contact your Duo administrator to have a new device added.

Choose an authentication method

 Duo Push RECOMMENDED [Send me a Push](#)

 Call Me [Call Me](#)

 Passcode [Enter a Passcode](#)

Remember me for 8 hours

Powered by Duo Security

Choose an authentication method and complete two-factor authentication to begin adding your new device.

If you're adding a new device to replace one that you previously activated for Duo Push, don't select the Duo Push authentication method on this page unless you still have the original device. If you don't have the original device, but you have a new device with the same phone number, then you can authenticate with a phone call or SMS passcode.

You can't add a new device from this page if you do not have access to any of your previously enrolled authentication devices; you'll need to contact your Duo administrator for help.

Add a new device

First, we need to confirm it's really you. Choose an authentication method below to begin adding a new device to your Duo account.

Choose an authentication method

 Call Me	Call Me
 Passcode	Enter a Passcode
 Duo Push	Send Me a Push
