

Number in College Appeal Questionnaire

(To be completed by student and/or parent due to having more than one family member in college and it's causing an unusual burden)

An appeal for more than one student in college is new for the 2024-2025 award year. In the past, the Department of Education included the ability to include more than one in college (if applicable) in its analysis of your household's ability to pay. This year, we can only adjust the ability to pay if having more than one in college is causing an unusual financial burden.

Supporting documentation for this Professional Judgment request are:

- Proof of other student(s) college registration/enrollment for the semester(s) being addressed and
- Documentation from that college that reflects:
 - Total tuition and fees;
 - Total grants and scholarships

Determinations will be based on the financial aid award year, which runs yearly from July 1st to June 30th. While we are only requiring documented support for the first semester to consider approval, appeals and supporting documents will need to be submitted for each subsequent financial aid award year for approval.

I am submitting that I have more than one college student in my household this academic year, and this is causing my family financial hardship.

Here, list the number in college (not including yourself): _____

Please provide details of your appeal on the lines below:

For each of the family members currently enrolled in college noted above, I am submitting the following:

1. Proof of attendance for this award year
2. Detailed breakdown:
 1. Tuition and fees for all applicable periods of enrollment *
 2. A list of all grants and scholarships the student is receiving for the same period **

* An account card from the Bursar or Student Accounts Office can usually meet this requirement so long as it reflects all charges and pending financial aid.

** A Financial Aid Award Notice will contain a list of grants and scholarships.

I agree that I will inform the financial aid office at Berkeley College immediately if the projected number in college changes from what I have submitted here today.
