

Careers in Accounting

Career Path: Public or Corporate Accounting

Public Accountants perform a broad range of accounting, auditing, tax, and consulting tasks. Their clients include corporations, governments, and individuals.

Recommended Courses:

For students interested in a career in public or corporate accounting, the following elective courses are recommended. These courses enhance a student's database skills, knowledge of the federal tax system and develop their ability to speak well and communicate clearly.

ACC3352 Federal Taxation II

Builds on the concepts presented in Federal Taxation I. This course focuses on the study of advanced income taxation with a particular emphasis on the taxation of corporations, partnerships, and estates. Prerequisite: ACC3351

CIS2204 Database Management Systems

Provides students with hands-on experience using well-known database management software applications, such as Microsoft Access. Topics include an introduction to database programming; multiple database files; query files; reports; and the planning, development, and implementation of database systems.

HUM2211 The Art of the Argument

Explores the various techniques of argumentation. This course presents flaws in arguments, such as frauds, deceptions, and logical errors.

Career Paths are not minors or concentrations and will not be noted on a student's transcript or diploma. Career Paths are suggested electives to fill elective credits.
