Register for

Visit MyID.berkeleycollege.edu

2. Type in your username in Your Berkeley College username box. Press Continue.

3. Enter your password. Press Log In.

4. Under My profile click the link Update security questions
5. Once you created your security questions click the Update button

<table>
<thead>
<tr>
<th>Delete?</th>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>In what city were you born? (1-99 characters)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Who is your favorite book character? (1-99 characters)</td>
<td></td>
</tr>
</tbody>
</table>

Not enough security questions have been enrolled.
6. Select two questions under **Standard questions** and answer them. You only need to select and answer two questions in this category.

7. Under **User defined questions**, you will need to write two of your own questions and answer them. You only need to write and answer two questions in this category as well. Your answer must be 5 characters or longer.

8. Once you have answered Standard Questions and User Defined Questions, please click Update.
9. Once your security questions have updated successfully, you will see the following screen. Here, you can reset your password and/or unlock your account.
If you require assistance or have any questions and/or concerns, please call the Helpdesk.
