Health Sciences

The first step toward many healthcare career options.

The Health Sciences Associate's degree program prepares students to meet the challenges of today's complex healthcare environment through a combination of concentration-specific and general coursework. Students are able to select either a Patient Care Technician or Surgical Processing Technician concentration, based on their individual interests and career goals.

Benefit from:

- | A program that provides a strong foundation in the fundamentals of healthcare
- | Hands-on learning using modern equipment in simulated healthcare environments
- | Opportunities to practice communication and interpersonal skills needed for developing a rapport with colleagues and patients
- | Valuable, practical experience through a program-related, faculty-monitored internship
- | Liberal Arts and Sciences courses, including a Humanities elective, that provides students with the foundation of skills and knowledge necessary to reason clearly and communicate effectively

Programs

- | **A.A.S., Health Sciences**
- | **Patient Care Technician Certificate**
- | **Surgical Processing Technician Certificate**
